Google Forms

Thanks for filling out [Fund 9 Statement of Milestones](#)

Here's what was received.

Fund 9 Statement of Milestones

Please use this form to list in detail the key project milestones which will be used to measure the progress of your project. A milestone is the **planned completion of a significant event** in the successful delivery of your project. **Funds are only released on satisfactory completion and delivery of each milestone.** Each milestone must be clearly described. For each milestone you must also explain how you intend to evidence the completion of the milestone. At the point you have completed a milestone and wish funds to be released you will be required to provide clear visible evidence of the completion of the milestone via this 'Milestone Completion' form. Your project needs to have a minimum of 4 milestones and a maximum of 5 milestones including completion. The final payment will be made at the completion of the final milestone and the submission of a project close report and video.

Email *

michal.wojtera@gmail.com

What is your project ID number? This is a 6 digit number starting with 9***** - denoting that your project is in Fund 9. You can find your Project ID number under

the 'F9 Reporting' tab in this sheet [here](#) *

900140

Please provide the name of your approved project *

Login with Cardano Wallet - cAuth

What is the planned end date of your project? *

MM DD YYYY

03 / 31 / 2023

This section covers Milestone 1

This section covers M1 of your project. Please make sure the milestone is very clearly described to avoid any delays in payment at the milestone completion stage.

Milestone 1 - REQUIRED Please name this milestone *

A milestone is the key deliverable(s) required to complete this phase of the project and position your project towards the next milestone.

Phase 1 - Project Bootstrap

Outputs - Please describe the nature of the outputs you expect from this milestone

*

You should specify the context and number of outputs you will produce. For example:
new UI/UX designs, customer/user-centred research, work package technical outputs, documentation, prototypes, demonstrators/pilots, white-paper, business/tokenomics model, events, research papers, measurable engagement, reference/production software implementation **or any other outputs you will provide.**

1. Project Forming Report 2. State of the Ecosystem Report

Acceptance Criteria - Describe the acceptance criteria for this milestone *

Acceptance criteria are linked to intended outcomes and targets and are standards/levels by which to judge whether an objective/goal/ target/outcome has been achieved/successful

For Report #1 a simple document listing what tools and solutions are used For Report #2 referenced document outlining current state of authentication and identity technologies in Cardano and blockchain, with links to relevant research papers, standards, articles

Evidence of Milestone completion - How do you intend the evidence to demonstrate the completion of this milestone? *

The evidence you submit must show clearly and visibly that this milestone has been completed.

Present and discuss the reports

In which month do you plan to complete this milestone. (Month 1 is the start month of your project) *

Month 1

What is the cost forecast in US\$ to complete this milestone? *

IMPORTANT cost for M1 delivery cannot exceed 30% of the whole project cost

5000

Once you have completed this milestone, how much in % terms will you have completed of your project? *

10%

Milestone 2 - REQUIRED

This section covers Milestone 2 of your project. Please make sure the milestone is very clearly described to avoid any delays in payment at the milestone completion stage.

Milestone 2 - REQUIRED - Please name this milestone. *

A milestone is the key deliverable(s) required to complete this phase of the project and position your project towards the next milestone.

Phase 2 - PoC dApp for issuing NFT credentials

Outputs - Please describe the nature of the outputs you expect from this milestone

*

You should specify the context and number of outputs you will produce. For example: new UI/UX designs, customer/user-centred research, work package technical outputs, documentation, prototypes, demonstrators/pilots, white-paper, business/tokenomics model, events, measurable engagement, reference/production software implementation **or any other outputs you will provide.**

code in github, UI/UX designs

Acceptance Criteria - Describe the acceptance criteria for this milestone *

Acceptance criteria are linked to intended outcomes and targets and are standards/levels by which to judge whether an objective/goal/ target/outcome has been achieved/successful

Working PoC dApp

Evidence of Milestone completion - How do you intend to evidence to demonstrate the completion of this milestone? *

The evidence you submit must show clearly and visibly that this milestone has been completed.

Demonstration of working dApp

In which month do you plan to complete this milestone. (Month 1 is the start month of your project) *

Month 2 ▼

What is the cost forecast in US\$ to complete this milestone? *

IMPORTANT cost for M2 delivery cannot exceed 30% of the whole project cost

5000

Once you have completed this milestone, how much in % terms will you have completed of your project? *

30% ▼

Milestone 3 - REQUIRED

This section covers Milestone 3 of your project. Please make sure the milestone is very clearly described to avoid any delays in payment at the milestone completion stage

Milestone 3 - REQUIRED - Please name this milestone. *

A milestone is the key deliverable(s) required to complete this phase of the project and position your project towards the next milestone.

Phase 3 - Client and Backend Libraries

Outputs - Please describe the nature of the outputs you expect from this milestone

*

You should specify the context and number of outputs you will produce. For example:
new UI/UX designs, customer/user-centred research, work package technical outputs, documentation, prototypes, demonstrators/pilots, white-paper, business/tokenomics model, events, measurable engagement, reference/production software implementation **or any other outputs you will provide.**

Code in GitHub

Acceptance Criteria - Describe the acceptance criteria for this milestone *

Acceptance criteria are linked to intended outcomes and targets and are standards/levels by which to judge whether an objective/goal/ target/outcome has been achieved/successful

The code compiles and works, can be integrated into an existing codebase

Evidence of Milestone completion - How do you intend to evidence to demonstrate the completion of this milestone? *

The evidence you submit must show clearly and visibly that this milestone has been completed.

Demonstration of using the library in a working application. Demonstration of integration.

In which month do you plan to complete this milestone. (Month 1 is the start month of your project) *

Month 3

What is the cost forecast in US\$ to complete this milestone? *

IMPORTANT cost for M3 delivery cannot exceed 30% of the whole project cost

5000

Once you have completed this milestone, how much in % terms will you have completed of your project? *

50%

Do you have a Milestone 4? *

Yes

☐ No

Milestone 4

This section covers Milestone 4 of your project. Please make sure the milestone is very clearly described to avoid any delays in payment at the milestone completion stage. If there is no M4 please leave this section blank

Milestone 4 - REQUIRED - Please name this milestone. *

A milestone is the key deliverable(s) required to complete this phase of the project and position your project towards the next milestone.

Phase 4 - OAuth bridge

Outputs - Please describe the nature of the outputs you expect from this milestone *

You should specify the context and number of outputs you will produce. For example: new UI/UX designs, customer/user-centred research, work package technical outputs, documentation, prototypes, demonstrators/pilots, white-paper, business/tokenomics model, events, measurable engagement, reference/production software implementation **or any other outputs you will provide.**

code in GitHub

Acceptance Criteria - Describe the acceptance criteria for this milestone *

Acceptance criteria are linked to intended outcomes and targets and are standards/levels by which to judge whether an objective/goal/ target/outcome has been achieved/successful

Code compiles and works.

Evidence of Milestone completion - How do you intend to evidence to demonstrate the completion of this milestone?

The evidence you submit must show clearly and visibly that this milestone has been completed.

We demonstrate integration of the bridge with an existing webapp.

In which month do you plan to complete this milestone. (Month 1 is the start month of your project)

Month 4

What is the cost forecast in US\$ to complete this milestone? **IMPORTANT** cost for M4 delivery cannot exceed 30% of the whole project cost

5000

Once you have completed this milestone, how much in % terms will you have completed of your project?

70%

Final milestone - REQUIRED

This section covers the final milestone of your project. Please make sure the milestone is very clearly described to avoid any delays in payment at the milestone completion stage.

Final Milestone & Completion - REQUIRED - Please name this final milestone. *

Phase 5 - Project Finalization

Acceptance Criteria - Describe the acceptance criteria for this milestone *

Please provide details on the acceptance criteria to consider the project complete and a success

Security Audit Report Documentation Final Codebase Publication

Evidence of Milestone completion - How do you intend to evidence to demonstrate the completion of this milestone? *

The evidence you submit must show clearly and visibly that this milestone has been completed.

Discussion of Security Audit. Demonstration of documentation. Demonstration of final product.
Demonstration of code publication (public GitHub)

In which month do you plan to complete this final milestone. (Month 1 is the start month of your project) *

Month 5

What is the cost forecast in US\$ to complete this milestone? *

IMPORTANT This milestone phase will not be paid in full until you have submitted your project completion report and demonstration video.

10000

Project Completion - REQUIRED

PLEASE NOTE: Your final payment for the final milestone is made on completion of your project.

To complete your project you will need to submit a **project close report and project demonstration video** which will release the final batch of your funds.

Project completion. Please describe the final outputs of the project. *

What will the project have delivered at completion to demonstrate that the final outcome has been achieved/successful?

Public code and documentation. Project website available.

In which month do you plan to complete your project. (Month 1 is the start month of

your project) *

Month 6

By the end of the project, what capabilities will you specifically show to the Cardano Community? *

This final output should demonstrate that the product or service works and can bring tangible value to the Cardano Community

Community can "Login with Cardano" using cAuth.
